

**Pesticide Products Prohibited From Use in  
California Schools and Child Care Facilities  
Pursuant to Assembly Bill 405 (Montanez) – Chapter 566, Statutes of 2005**

The following pesticide products meet the criteria of Education Code 17610.1(a), and therefore, are prohibited from use on schoolsites. Also prohibited are all pesticide products that are canceled or suspended by the California Department of Pesticide Regulation, or are under phaseout of use. To check the registration status of a product, search DPR's Product/Label Database: <https://www.cdpr.ca.gov/docs/label/labelque.htm>

<b>Product Brand Name</b>	<b>EPA Registration Number</b>
Amplitude	84059-28-ZA
Amplitude ST	84059-28-ZB
Aprovia Fungicide	100-1471-AA
Aprovia Top Fungicide	100-1476-AA
Atrakta Mosquito Lure	87472-1-AA-87837
BG-Sweetscent	87472-1-AA
Bioworma	91253-1-AA
Contrapest	91601-1-AA
DuPont Benevia Insect Control	352-857-AA
DuPont Exirel Insect Control	352-859-AA
DuPont Verimark Insect Control	352-860-AA
Ecoswing Botanical Fungicide	10163-357-AA
Elatus Fungicide	100-1480-AA
Embed Extra	62719-726-AA
Employ	71771-3-AA
Ennoble Biofumigant	84059-26-AA
Fastac CS Insecticide	7969-364-AA
Gatten CA Fungicide	11581-6-AA-71711
Howler	91197-3-AA-92488
Kabuto Fungicide SC	71512-23-AA-2217
Livamol with Bioworma	91253-2-AA
NoFly WP	88664-1-AA
Onebait Universal Mosquito Trap Attractant	87472-1-AA-74939
Protec-T	87809-1-AA
Rhyme Fungicide	279-3588-AA
Starbar Cyanarox Insecticidal Bait	100-1541-AA-89459
Stargus	84059-28-AA
Vectorite with CR-7	90641-2-AA
Zio Fungicide	67690-77-AA

Any vendor or manufacturer of pesticides is prohibited from making these pesticides available to a school district by sale or gift.

The aforementioned pesticide products are prohibited from use on “schoolsites” in accordance with California Education Code section 17610.1(a) because they are registered for use in the State of California either (1) conditionally<sup>i</sup>, (2) as an interim registration<sup>ii</sup>, or (3) under an Experimental Use Permit (EUP)<sup>iii</sup>, and contain either a new active ingredient or are intended for a new use. (Note: conditionally registered pesticide products that are for a new use and have fulfilled all registration requirements that relate to human health are exempted.)

The term “schoolsites” is defined in California Education Code section 17609 as any facility used for child care (other than family day care homes), or for public kindergarten, elementary, or secondary school purposes. The term includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by pupils. A “schoolsites” does not include any postsecondary educational facility attended by secondary pupils or private school facilities.

Please note that DPR updates this list quarterly and it may not be an exhaustive list of all the pesticide products that meet the criteria of Education Code section 17610.1(a).

If there are any questions about this list, please contact:

---

<sup>i</sup> California Code of Regulations section 6200 authorizes the Director to waive specific data requirements for pesticide product registration for a limited period of time to allow for generation of incomplete data. Most conditionally registered pesticide products are registered as such based on missing efficacy or phytotoxicity data.

<sup>ii</sup> Interim registration is established in Food and Agriculture Code sections 13161-13170. The statute allows an applicant for registration of the first agricultural use of a pesticide active ingredient to defer submission of no more than three efficacy or environmental fate studies (e.g., soil photolysis study, field dissipation study) for a period not to exceed three years, provided certain criteria are met. The product must be a significant component of an integrated pest management system, and reduce risk to the public and the environment. In addition, all data submitted to the U.S. Environmental Protection Agency (U.S. EPA) to support federal registration must be submitted to DPR, and the product must not be expected to have a significant adverse effect on public health or the environment, or threaten to pollute groundwater.

<sup>iii</sup> Experimental Use Permits (EUPs) are defined in federal statute (Federal Insecticide, Fungicide, and Rodenticide Act, Section 5). U.S. EPA issues EUPs; however before an EUP pesticide can be sold or used in California, it must also be registered with DPR. Restrictions are placed on the use of the pesticide, including an expiration date, limit on total amount of product to be used, limit on total number of acres to be treated, and a requirement for quarterly reports. Once registered with DPR, the product may be sold to specific California researchers to be used in research trials; however the products are NOT available to the public.
